Full stack for one team: 5 LinkedIn accounts, 25 sending mailboxes and a sequencer

Monthly list prices for one team: 5 LinkedIn accounts and 25 mailboxes at full volume, 25 cold emails a mailbox a day on 22 sending days: 13,750 emails a month to about 4,584 new contacts on 3-step sequences. Each vendor is on its cheapest plan that covers that volume.

SETUP	LINES	TOTAL A MONTH
Outreach2day	LinkedIn accounts: 5 × $29 an account = $145; Mailboxes, warmup included: 25 × $2.50 a mailbox = $62.50; Sequencer: Included with the mailboxes. One subscription for email, LinkedIn and mailboxes; 12 mailboxes minimum	$207.50
Reply.io	Email Volume, 5,000 active contacts: up to 125 mailboxes = $99; LinkedIn add-on: 5 × $69 an account = $345; Mailboxes from Reply.io: 25 × $5 a mailbox = $125. Active contacts cap the plan; 4,584 new contacts a month need the 5,000 tier	$569
Snov.io	Starter plan: 5,000 recipients a month, 3 warmups = $39; LinkedIn slots: 5 × $49 a slot, 5 to 9 tier = $245; Mailboxes from Snov.io: 25 × $5 a mailbox = $125. Starter covers the recipients; it warms 3 mailboxes, Pro S ($99) warms all	$409
Woodpecker	Email plan: 50,000 emails a month, 10 warmups = $79; LinkedIn slots: 5 × $29 a slot = $145; Mailboxes from Woodpecker: 25 × $4 a mailbox = $100. The $39 plan sends 5,000 emails a month; more warmups $5 a month each	$324
lemlist	Multichannel seats: 5 × $109 a seat, 5 senders each = $545; Mailboxes: Google Workspace: 25 × $8.40 Business Starter, Flexible = $210. Unlimited emails and contacts; lemlist shows no mailbox price, so the mailboxes are Google Workspace	$755
QuickMail	Growth plan: 100,000 emails, 25,000 contacts a month, unlimited LinkedIn accounts = $99; Gmail packs from QuickMail: 3 × $40 for 10 accounts = $120. Starter ($49) sends 5,000 emails a month	$219
Salesforge	Growth plan: 50,000 emails a month, unlimited LinkedIn senders, 1,000 actions a month = $96; Mailboxes: Google Workspace: 25 × $8.40 Business Starter, Flexible = $210. 1,000 LinkedIn actions a month shared by the 5 accounts; more credits in the app	$306
Instantly + HeyReach	Instantly Hypergrowth plan: 125,000 emails, 25,000 contacts a month = $107; HeyReach Growth: 5 × $79 a sender = $395; Mailboxes from Instantly: 25 × $5 a DFY Google account = $125. Two subscriptions; Growth ($47) sends 5,000 emails a month	$627
Smartlead + HeyReach	Smartlead Pro plan: 90,000 emails, 30,000 contacts a month = $94; HeyReach Growth: 5 × $79 a sender = $395; Mailboxes from Smartlead: 25 × $3.99 a SmartSenders mailbox = $99.75. Two subscriptions; Base ($39) sends 6,000 emails a month	$588.75

Mailboxes: each vendor's lowest published price per mailbox a month; lemlist and Salesforge show none, so their rows use Google Workspace at $8.40 a user on the Flexible plan. Domains are left out of every row: each setup needs its own sending domains, bought by the year.

Volume: 13,750 emails a month is 25 × 25 × 22, the sending-day convention of our pricing page; contacts are emails ÷ 3 (a first email and two follow-ups). Entry plans that cap below it (QuickMail Starter, Woodpecker $39, Instantly Growth, Smartlead Base, Reply.io below 5,000 contacts) are moved up a step. HeyReach rows use its Growth plan, which includes a proxy per sender. Amplemarket sells annual plans only and is left out.

Which kind of tool fits

One person, one LinkedIn account	A cloud tool at $79 a month is the median; desktop tools such as Linked Helper start lower and run on your own computer.
An agency with 20 to 50 accounts	Look for published volume tiers (GetSales.io, Snov.io, Expandi) or agency packs (HeyReach, Aimfox); several tools keep one price per account at any count.
A team that sends email and LinkedIn together	An email sequencer with LinkedIn steps keeps both channels in one sequence; compare the full-stack totals, which add mailboxes and the plan.

Frequently asked questions

How much does LinkedIn automation cost per account?

$79 a month is the median for one LinkedIn account in a cloud tool on monthly billing (11 tools). Cloud tools run from $29 (Woodpecker's slot, on its email plan) to $100 (Skylead); desktop tools start at $15 (Linked Helper). Annual billing is lower where offered: HeyReach $64 against $79, Dripify $59 against $79.

Is it cheaper per account at agency volume?

With some tools. At 50 accounts GetSales.io is $22 per account, Snov.io $25, HeyReach $27.98 on its 50-sender Agency pack (own proxies) and Expandi $69; Aimfox ($34.95 at 20) and SalesRobot ($44 at 20) quote 50+ on a call. Dripify, Skylead and Dux-Soup STACKED cloud list one price per account at any count. Outreach2day is $29 per account up to 49 accounts; 50+ is priced on a call.

Cloud vs Chrome extension: why the price differs

A cloud tool runs your LinkedIn account on its servers, usually behind a dedicated proxy or IP, and keeps running with your computer off; that infrastructure is in the price. A desktop app or browser extension runs on your computer and your IP. Dux-Soup shows the gap inside one product: STACKED local is $55 a month, STACKED cloud $99. Linked Helper, a desktop app, is $15 a licence; lemlist runs LinkedIn through the browser session and its Chrome extension, in a $109 seat that includes email.

Which email sequencers include LinkedIn?

Reply.io ($69 add-on), Snov.io ($69 a slot, $25 from 50), Woodpecker ($29 a slot), lemlist (one account in a $109 Multichannel seat), QuickMail (unlimited accounts on plans from $49), Salesforge (credits per action; $48 Pro with one sender), Amplemarket (annual plans, LinkedIn not priced) and Outreach2day ($29 per account, flat).

Does Instantly or Smartlead have LinkedIn automation?

Neither runs LinkedIn steps itself. Instantly connects HeyReach, Aimfox or Valley; Smartlead connects HeyReach or Aimfox through SmartAgents. Each partner is a second subscription: at the volume of 25 mailboxes, Instantly Hypergrowth ($107), 5 HeyReach senders ($395) and 25 Instantly mailboxes ($125) come to $627 a month.

How this report was put together

Published by Outreach2day, which sells LinkedIn accounts in its email sequencer. Its row ($29 per account) is shaded and left out of every statistic; every other price comes from the vendor's official page. November 2026 edition.

Scope

27 products in three groups: LinkedIn-first tools, email sequencers that run LinkedIn steps, and email sequencers that hand LinkedIn to a partner tool or a manual task. Outreach2day sits in the email sequencer group, shaded.

Price per account

For each count, the lowest monthly-billing list price that covers exactly that many LinkedIn accounts, divided by the count. A pack (25 senders for $999) is divided by the accounts used; a percentage discount the page states for that count is applied. Where the page sends a count to sales, the cell says so; where the vendor publishes no price, the cell says so. No figure is estimated.

Statistics

Medians and ranges use cloud tools priced per LinkedIn account in USD on monthly billing (11 tools). Left out: euro prices (Waalaxy, La Growth Machine, PhantomBuster), desktop tools, tools whose pages do not say how LinkedIn runs (Reply.io, Salesforge, Amplemarket), Valley (seats with data credits and onboarding), Prosp.ai (billed every 4 weeks) and Outreach2day.

Type, email and proxy

As each vendor's own pages state them. Cloud runs your LinkedIn account on the vendor's servers; a desktop app runs on your computer. Not stated means the official pages do not say.

Full stack

5 LinkedIn accounts and 25 mailboxes at full volume, 25 cold emails a mailbox a day on 22 sending days: 13,750 emails a month to about 4,584 new contacts on 3-step sequences. Each vendor is priced on its cheapest monthly plan that covers those emails and contacts, with its own lowest published mailbox price where it sells mailboxes, otherwise Google Workspace Business Starter, Flexible plan at $8.40 a user. Warmups and LinkedIn action caps differ; each card says where. Domains are left out of every row.

Disclosure

Outreach2day publishes this report. It charges $29 a month per connected LinkedIn account (50+ accounts on a call) and $2.50 per mailbox (12 minimum). Its row is shaded and left out of every statistic.
